HUME AND DARTMOUTH DAM NATURAL INFLOW RECORDS 1892 TO 2010:
Hume & Dartmouth Historical Records Notes (Compiled 16th July 2010):

- 1.** The following natural dam inflow graph & table information is a very valuable record of not only dam inflow, but also of general rainfall that has occurred in the Murray Darling Basin over the past 118 years.
- 2.** It can be seen from the two Hume & Dartmouth Graphs that inflows over the past approximate 5 years are the lowest on the records shown.
However, it can be also seen that other periods such as, in the Federation Drought of the late 1890's to 1902, in the the 1911 to 1914 Drought, and in the Depression Drought of the 1940's, also had fairly similar very low natural inflow inflow characteristics. 1967 and 1982 also show out on the records as significant single very low inflow years.
- 3.** On 'eyeballing" the two graphs it can be seen that the inflows move up and down in regular cycles with peaks of inflow at around 1894, 1906, 1916, 1930, 1956(The Big Murray Flood), 1974 and 1992.
- 4.** The period between these peak years is 12, 10, 14, 16, 17 and 19 years apart respectively.
One can use this information to forecast the next peak that may be due from these regular cycles. IE. Add 19-20 years on from 1992, and we arrive at a forecast of 2011-2012 for the next peak inflow cycle.
- 5.** This next forecast peak cycle falls agrees quite well with long range Murray Darling Basin rainfall predictions by Holton Weather in another web article "WHAT IS THE MAIN FACTOR CONTROLLING THE MURRAY DARLING BASIN SYSTEM RAINFALL (SOUTH QLD-NEW SOUTH WALES-VICTORIA & SOUTH AUSTRALIA AREAS)?..... AND WHAT DOES THE FUTURE HOLD FOR THE RAINFALL OF THE VAST MURRAY DARLING BASIN SYSTEM?" Ian Holton, Holton Weather Forecasting Pty Ltd : Friday 5th March 2010. This article can be found at <http://www.holtonweather.com>
**This historical July 1892 to June 2010 dam inflow information is kindly provided by The Murray Darling Basin Authority (On the understanding that the information is available to the public generally).*

Graph 1: Hume Dam New South Wales Natural Inflow: 1892 to 2010

Graph 1: Dartmouth Dam Victoria Natural Inflow: 1892 to 2010
